

REVSTAT
REVIEW STATUS (not abstracted)
0. Abstraction has not begun
1. Abstraction in progress
2. Abstraction completed w/o errors
3. TVG failure (exclusion)
4. Record contains missing required answers (error record)
5. Administrative exclusion from all measures

DOCHOSPCE (PI module)
Is one of the following documented in the medical record:

- the patient is enrolled in a VHA or community-based Hospice program
- the patient has a diagnosis of cancer of the liver, pancreas, or esophagus
- on the problem list it is documented the patient's life expectancy is less than 6 months?

TOB NOW (PI Module)
At the most recent screening, did the patient report he/she is a current tobacco user?

1. Reported he/she is a current tobacco user
2. Reported he/she is not a current tobacco user

95. Not applicable

OFFTUCRX (PI Module)
Within the past year, was the patient offered medication to assist in tobacco use cessation by a provider?

2. Yes, medication offered by a prescribing provider
3. Yes, medication offered by non-prescribing provider
4. No offer of medication documented
95. Not applicable

PTREQRX (PI Module)
Did the non-prescribing provider who offered tobacco cessation medication document that the patient requested tobacco cessation medication?

1. Yes
2. No
95. Not applicable
98. Patient refused tobacco cessation medication

```

```

The flowchart details the selection criteria for the numerator and denominator of the MDE indicator. It begins with a 'START' node, leading to a decision diamond for 'CATNUM'. If 'CATNUM' is 54, the flow proceeds to a 'FEFLAG' decision diamond. If 'FEFLAG' is 1, the flow proceeds to a 'REVSTAT' decision diamond. If 'REVSTAT' is NOT equal to 2, the flow proceeds to an 'EXCLUDED' node. If 'REVSTAT' is 2, the flow proceeds to a 'DOCHOSPCE' decision diamond. If 'DOCHOSPCE' is 1, the flow proceeds to an 'EXCLUDED' node. If 'DOCHOSPCE' is Missing, the flow proceeds to an 'MDE' node. If 'DOCHOSPCE' is 2, the flow proceeds to a 'TOBNOW' decision diamond. If 'TOBNOW' is 2 or 95, the flow proceeds to an 'EXCLUDED' node. If 'TOBNOW' is Missing, the flow proceeds to an 'MDE' node. If 'TOBNOW' is 1, the flow proceeds to an 'OFFTUCRX' decision diamond. If 'OFFTUCRX' is 95 or Missing, the flow proceeds to an 'MDE' node. If 'OFFTUCRX' is 2, 3, or 4, the flow proceeds to another 'OFFTUCRX' decision diamond. If this second 'OFFTUCRX' is 4, the flow proceeds to an 'In Denominator only (fails indicator)' node. If it is 2, the flow proceeds to an 'In Denominator & Numerator (passes indicator)' node. If it is 3, the flow proceeds to a 'PTREQRX' decision diamond. If 'PTREQRX' is 2, the flow proceeds to the 'In Denominator only (fails indicator)' node. If 'PTREQRX' is 1 or 98, the flow proceeds to the 'In Denominator & Numerator (passes indicator)' node. If 'PTREQRX' is 95 or Missing, the flow proceeds to an 'MDE' node.
