psychiatric care setting?

Is there documentation in the medical record of appropriate justification for discharging the patient on two or more routine antipsychotic medications?

1. The medical record contains documentation of a history of a minimum of three failed multiple trials of monotherapy 2. The medical record contains documentation of a recommended plan to taper to monotherapy due to previous use of

- multiple antipsychotic medications OR documentation of a cross-taper in progress at the time of discharge
- 3. The medical record contains documentation of augmentation of Clozapine
- 4. Documentation of a justification other than those listed in options 1 3
- 5. The medical record does not contain documentation supporting the reason for being discharged on two or more antipsychotic medications OR unable to determine from medical record documentation
